Advisory Business

Oliver Financial Planning, LLC has been in business since 2005. Rob Oliver is 100% owner and principal of the firm. We hold ourselves to a fiduciary standard, which means that we act with undivided loyalty in the best interests of our clients.

We provide financial planning and investment advisory services to individuals and families on a Fee-Only basis. Our services are provided either on an ongoing basis through a monthly fee (“Financial Planning Program”) or on an hourly, as-needed basis (“Hourly Consultation”).

Financial Planning Program

Our Financial Planning Program is designed for clients who want ongoing help with their finances. Services include annual portfolio rebalancing instructions, an annual financial plan update, and biannual update meetings. We provide you with rebalancing instructions on an annual basis and a list of action items after update meetings. The Financial Planning Program also includes ongoing financial planning advice as well as access to our portfolio aggregation and financial planning applications.

As a new Financial Planning Program client, you meet with us over a series of meetings to address gaps in your personal finances, establish an investment strategy, and create a goals-based financial plan.

Hourly Consultations

We provide hourly, as-needed consultations to clients who first engaged Oliver Financial Planning between 2005 and 2013. However, we will fully discontinue hourly services as of February 28, 2017. These services may be general in nature or focused on a particular area of interest or need depending on each client’s unique circumstances. We do not intend to take on new Hourly Consultation clients after December 2013 but reserve the right to do so.

Returning hourly clients can request our services prior to February 28, 2017. We discuss and agree upon the scope of each engagement at the time you request service. Each engagement is concluded when we provide you with recommendations. We have no responsibility to provide you with advice between engagements. We encourage periodic reviews but it is your choice and responsibility to initiate these reviews.

Investment Advisory Details

Our investment advisory services are tailored for each client. We do not directly manage or monitor your investments, nor do we have discretion over or custody of your assets. Rather, we provide investment recommendations for you to implement using mutual funds and exchange-traded funds with a preference for low-cost index funds.

Our investment advice is focused on helping you determine and choose the appropriate target percentages (i.e. asset allocation) and specific investments for your portfolio. We can provide specific instructions on how to reallocate your investment accounts but you are responsible for implementation. We do not make trades on your behalf. We encourage you to meet with us on an annual basis to get instructions on rebalancing your portfolio to its target percentages. Hourly Consultation clients are responsible for initiating these reviews.

In addition to our investment advisory services, we provide financial planning services on topics such as retirement planning, college savings, cash flow and debt management, work benefits, estate and incapacity planning, and insurance.

Fees and Compensation

We charge for our services on a flat fee or hourly basis depending on our written agreement with you. These fees are our only form of compensation.

Financial Planning Program

New Financial Planning Program clients pay a one-time Start-up Fee based on net worth (assets minus liabilities). All Financial Planning Program clients pay an ongoing monthly Program Fee also based on net worth. The table below summarizes startup and program fees based on net worth categories. Your fee level will be determined in advance, and stated on your Client Service Agreement for approval. Fees will be reviewed annually but will not change without your written consent.

| Net Worth Up To | Monthly Program Fee | Start-up Fee |
|-----------------|---------------------|--------------|
| \$1 million | \$250 | \$1,500 |
| \$1.5 million | \$313 | \$1,878 |
| \$2 million | \$375 | \$2,250 |
| \$2.5 million | \$438 | \$2,628 |
| \$3 million | \$500 | \$3,000 |
| \$3.5 million | \$563 | \$3,378 |
| \$4 million | \$625 | \$3,750 |
| \$4.5 million | \$688 | \$4,128 |
| \$5.0 million | \$750 | \$4,500 |

The Startup Fee is due when you sign our Client Service Agreement, and is typically paid by check. Program fees are due on the last business day of each month via electronic payment, and are paid in arrears (for the past month).

If you request to terminate as a Financial Planning Program client, we will refund any unearned, pre-paid fees from your Startup Fee within twenty days of receiving your written termination notice. We will calculate the refund amount based on the equivalent hourly fee we have earned prior to your termination notice. We will not refund any monthly fees since they are paid in arrears, but will stop any further automatic payments upon receiving your written termination notice.

Hourly Consultations

Our current hourly rates are \$230 per hour for Certified Financial Planner™ professionals and \$115 per hour for Paraplanners. We bill in six-minute increments. Our fees are not negotiable but we may provide discounts at our discretion.

Fees for hourly services are billed at the completion of each engagement. You pay us directly for our services by check or electronic payment.

If you terminate an Hourly Consultation engagement prior to its completion, we will refund any unearned, pre-paid fees within twenty days of receiving your written termination notice. We will calculate your refund by subtracting the fees for the hourly services we have earned prior to your termination notice from any pre-payment you have made.

Hourly services will discontinue after February 28, 2017.

External Fees

If you follow our investment advice, you may also incur separate fees and expenses that are charged by mutual funds and/or exchange traded funds. We recommend that you review each investment prospectus for a complete explanation of these fees and expenses. In addition, you may incur separate transaction costs or administration fees from brokerage firms. We recommend that you obtain a complete schedule of fees from your brokerage firm. We do not receive any portion of these other fees. We do not receive commissions or third-party payments of any kind.

Performance-Based Fees and Side-by-Side Management

We do not earn fees based on the performance of your assets. Our only compensation is the fee paid directly by our clients.

Types of Clients

Oliver Financial Planning, LLC primarily serves individuals and families. We require new Financial Planning Program clients to pay an Startup Fee and an ongoing Program Fee as shown above in the Fees and Compensation section. We have no other minimums or ongoing requirements of our clients. We reserve the right to decline services to any prospective client for any non-discriminatory reason.

Methods of Analysis, Investment Strategies and Risk of Loss

Our investment advisory services focus on helping you determine an appropriate investment mix (i.e. asset allocation) for your accounts and total investment portfolio. We will give you an asset allocation recommendation that is based on: 1) the results of a risk tolerance discussion, 2) your past behavior during volatile markets, 2) the amount of time you expect to be invested, and 4) your need (or lack thereof) to take risk to meet your stated goals.

Once we determine the target percentages for each asset class (i.e. distinct investment type) in your portfolio, we provide you with specific instructions on how to reallocate your account(s) to meet the asset allocation we have recommended.

We recommend that you invest in mutual funds and exchange traded funds within your accounts, and use low-cost, passively managed index funds whenever possible. We do not provide recommendations for buying individual securities such as individual stocks or bonds but can take existing individual securities into account when giving you investment advice.

We believe in a strategic buy, hold, and rebalance investment strategy and will recommend that you take this approach with your investments. We typically recommend that you reallocate your portfolio back to the target percentages we recommended on an annual basis.

While we strive to provide you with the highest possible return for a given level of risk, we cannot guarantee that you will achieve a certain level of return or meet your investment objectives. Your investments, including your original principal, may lose value if you follow our recommendations.

Investing in mutual funds and exchange traded funds involves risks including general market risk, liquidity risk, interest rate risk, currency risk, and political risk, among others. Investing in index funds, in particular, exposes you to the risk of tracking error, which is defined as the fund's deviation from its stated benchmark. We encourage you to read each fund's prospectus prior to investment for a discussion of its particular risks.

Hourly Consultation clients may request our investment advisory services and limit the scope of the engagement based on their individual needs.
